(1) 旗面為紅色，長方形，其長與高為三與二之比，旗面左上方綴黃色五角星五顆。一星較大，其外接圓直徑為旗高十分之三，居左；四星較小，其外接圓直徑為旗高十分之一，環拱於大星之右。旗桿套為白色。

(2) 五星之位置與畫法如下：

- a. 為便於確定五星之位置，先將旗面對分為四個相等的長方形，將左上方之長方形上下劃為十等分，左右劃為十五等分。
- b. 大五角星的中心點，在該長方形上五下五、左五右十之處。其畫法為：以此點為圓心，以三等分為半徑作一圓。在此圓周上，定出五個等距離的點，其一點須位於圓之正上方。然後將此五點中各相隔的兩點相聯，使各成一直線。此五直線所構成之外輪廓線，即為所需之大五角星。五角星之一個角尖正向上方。
- c. 四顆小五角星的中心點，第一點在該長方形上二下八、左十右五之處，第二點在上四下六、左十二右三之處，第三點在上七下三、左十二右三之處，第四點在上九下一、左十右五之處。其畫法為：以上四點為圓心，各以一等分為半徑，分別作四個圓。在每個圓上各定出五個等距離的點，其中均須各有一點位於大五角星中心點與以上四個圓心的各聯結線上。然後用構成大五角星的同樣方法，構成小五角星。此四顆小五角星均各有一個角尖正對大五角星的中心點。

(5) 國旗、旗桿的尺度比例應當適當，並與使用目的、周圍建築、周邊環境相適應。(由2021年第31號第14條增補)

國旗製法圖案

The shape and colour of either side of the national flag shall be identical, whereas the five stars on both sides of the flag shall be opposite to each other. For the sake of convenience, these specifications shall take the circumstances where the staff is on the left as the basis for illustration. Where the staff is on the right, the word "left" used in these specifications shall all be changed to "right", while the word "right" referring to direction shall all be changed to "left".

(1) The face of the flag shall be red and rectangular; the proportions of its length and height shall be 3 to 2. The upper left of the face of the flag shall be studded with five yellow five-pointed stars. One of the stars shall be bigger than the others, with its circumcircle's diameter being 3/10ths of the height of the flag, and shall be placed in the left; the four other stars shall be smaller, with their circumcircle's diameter being 1/10th of the height of the flag, encircling the big star on its right in the shape of an arc. The cover of the staff shall be white.

(2) The five stars shall be positioned and drawn as follows:

- a. To determine the position of the five stars, the face of the flag shall be first folded both ways to form four equal rectangles; then the rectangle on the upper left shall be vertically divided into 10 equal sections and horizontally divided into 15.
- b. The central point of the big five-pointed star shall be at a point in the rectangle where the 5th line from above (or the 5th line from below), and the 5th line from the left (or the 10th line from the right) meet. The method of drawing shall be: taking this point as the centre and the length of three such equals as the radius to make a circle. On the circumference of this circle, five points with equal distances from each other shall be determined, one of the points must be in the right above position of the circle. Then connect each of the five points with every other point to form a straight line respectively. The outline formed by these five straight lines shall be the required big five-pointed star. An angle of the five-pointed star shall point in the right above direction.
- c. The centres of the four small five-pointed stars shall be as follows: the first shall be at a point, in the rectangle, where the 2nd line from above (or the 8th line from below), and the 10th line from the left (or the 5th line from the right) meet; the second shall be at a point where the 4th line from above (or the 6th line from below), and the 12th line from the left (or the 3rd line from the right) meet; the third shall be at a point where the 7th line from above (or the 3rd line from below), and the 12th line from the left (or the 3rd line from the right) meet; the fourth shall be at a point where the 9th line from above (or the 1st line from below), and the 10th line from the left (or the 5th line from the right) meet. The method for drawing shall be: taking each of the above four points as the centre and the length of one such equal as the radius to make four circles. On each circle, five points with equal distances from each other shall be determined. One of such points must be on the line linking the centre of the circle with the centre of the big five-pointed star. Then the same methods used in forming the big five-pointed star shall be used to form the small five-pointed stars. The four small five-pointed stars shall respectively have an angle pointing right at the centre of the big five-pointed star.

(3) The measurement in common use for the national flag, from which people from various circles may choose at their discretion shall be as follows:

(5) The size of the national flag must be proportional to the staff, and be commensurate with the purpose of use, the surrounding buildings and the surrounding environment. *(Added 31 of 2021 s. 14)*

At the centre of the regional flag is a white 5-petal bauhinia in swaying motion. The diameter of its outer circle is 3/5 of the regional flag's height. The petals are evenly arranged round the central point of the regional flag in a clockwise direction. Each petal bears a red 5-pointed star and a red style. The centre of the bauhinia lies on the central point of the regional flag. The case of the pole is in white. The design of the regional flag is shown in Figure 1. (Amended 30 of 2023 s. 14)
